

2026 PROGRAMME GUIDE

A clear guide to the six-month Future Ready Executive MBA.

Everything to verify before you decide: programme structure, CMI recognition, published fees, scholarship assessment and employer funding.

6 months	6 training days	3 scheduled sessions	1 applied project
--------------------	---------------------------	--------------------------------	-----------------------------

Six months. One applied outcome.

The Executive MBA on Future Ready Business Leadership is awarded and endorsed by CMI. It is a six-month professional development programme designed for business owners, directors, general managers and senior managers who want to work on a live business issue while remaining in their roles.

How the six months work

Six facilitated training days are delivered across three scheduled sessions. Coaching and applied project work continue across the programme. You use the frameworks on a current business challenge and complete one applied business project. There are no traditional examinations or thesis.

Recognition, stated precisely

Successful participants receive the CMI Certificate of Recognition for the programme. This is a professional development programme, not an MQA-accredited academic degree or a regulated qualification. Chartered Manager is a separate optional CMI route with its own eligibility, assessment, membership and fees.

Published Malaysian fee

The standard programme fee is RM10,000.00. Scholarships are limited and awarded on a selective basis to eligible Malaysian applicants, following individual assessment and written approval. Any award and resulting participant fee are confirmed individually in writing.

Employer funding

An eligible HRD Corp-registered employer may submit a grant application before training begins. The programme team supplies the quotation, schedule, course content and trainer documents. HRD Corp decides eligibility and the approved amount; funding is not guaranteed by the programme provider.

Use these five checks before you enquire

- 01** You carry responsibility for business results, people or major decisions.
- 02** You can bring a current business issue into the applied work.
- 03** You can attend all published session dates and complete work across six months.
- 04** You understand the programme is professional development, not an academic MBA degree.
- 05** You want the exact fee, scholarship or employer-funding route confirmed in writing.

Arrange a programme conversation — support@futurereadymba.com

No payment or enrolment commitment is required to request information. If, after reading this, the programme is not the right route for your purpose, say so in the conversation; that answer is as useful to us as a yes.
